

ABOUT US

Audubon Care Homes was founded with one goal in mind: to care for the elderly by providing them with the highest quality of living.

We are dedicated to meeting the basic daily needs of the elderly who need help with everyday activities that exceed what their loved ones can provide.

With a higher caregiver-to-resident ratio compared with a typical nursing home, we ensure attentive and specialized care to meet each resident's specific needs. Our caregivers are trained to serve residents with Alzheimer's and related dementia care needs.

Audubon Care Homes is the only assisted living & memory care home in Metairie with state-of-the-art patient engagement technology by IN2L
